

MediaPool with TellyVizion

THE MOST POWERFUL LINUX MEDIA SERVER EVER DESIGNED EXCLUSIVELY FOR THE HOME ▶▶

- Play DVDs or Save 1,000* DVDs
- Store over 90,000* hours of Music
- Enjoy digital Photo collections
- Pause live TV
- Record 5,000* hours of TV programs
- Surf the Internet
- Access & manage it all from Telly's web site

5 Terabytes of configurable, high performance MediaPool storage is paired here with a TellyVizion that includes the TV/PVR option and a DVDRW drive to bring you a powerful Linux Media Center solution designed for the most ardent home theater enthusiast. This MediaPool/TellyVizion package provides expansion and reliability plus all the features you have come to depend on from a Telly Media Server. You can optimize MediaPool for maximum storage or configure it using RAID 10 for redundant storage that is safe and simple to manage.

Available exclusively through the Interact-TV dealer network

*The values listed are for comparison purposes only. The actual numbers depend on the mix of saved DVDs, CDs, digital photos and recorded TV programs stored on ProTelly.
